Stepik – "Поколение Python": курс для начинающих

Stepik – Python: основы и применение

GeekBrains – Стартуй в web разработке

Coursera - Python for Everybody & Django for Everybody (University of Michigan)

## Additional:

I have organized events at the university. Thanks to participation in scientific conferences, I feel comfortable in front of a large audience.

I am a creative person with a fairly wide range of interests. I take an active part in musical evenings, where I play guitar and sing songs, also in sports events.

I am always focused on the result, I quickly absorb new information and responsibly approach the tasks.

My friends call me a "born leader", but I think they flattered me :)
